

Building a chatbot and Integrating to the app

TEAM ID:PNT2022TMID49823

PROJECT NAME:Skill and Job Recommender

The screenshot shows the IBM Cloud Watson Assistant catalog page. The header includes the IBM Cloud logo, a search bar, and navigation links for Catalog, Manage, and the user's account (Saranya Ganesan's Acc...). The main content area is titled 'Watson Assistant' and describes it as a tool to build conversational interfaces. It features a 'Create' button and an 'About' tab. On the left, there's a sidebar with details: Type (Service), Provider (IBM), Last updated (11/08/2022), Category (AI / Machine Learning), and Compliance (EU Supported, HIPAA Enabled, IAM-enabled). The main section prompts the user to 'Select a location' (currently set to Sydney (au-syd)) and 'Select a pricing plan'. A table lists the available plans:

Plan	Features	Pricing
Lite	Everything you need to get started, free for as long as you need it Up to 1,000 unique monthly active users (MAUs)	Free

On the right, a 'Summary' panel shows the selected configuration: Watson Assistant, Location: Sydney, Plan: Lite, Service name: Watson Assistant-*id*, and Resource group: Default. It includes a checkbox for license agreement, a 'Create' button, and an 'Add to estimate' button.

The screenshot shows the 'Create your first assistant' setup page in the IBM Watson Assistant console. The header includes 'IBM Watson Assistant Lite', an 'Upgrade' link, and a 'Learning center' link. The main heading is 'Welcome to the new Watson Assistant'. Below it, a 'Next' button is visible. The section 'Create your first assistant' includes instructions: 'Let's get your assistant up and running. Name your assistant, add a description, and choose a language. In following steps we'll gather more information, show you basic customizations, and give you a preview of what your assistant will look like.' There are two input fields: 'Assistant name' with the value 'Skill Bot' and a note 'Your assistant name will be kept internally and not visible to your customers', and 'Description (optional)' with a character count of 0/128 and a placeholder 'Add a description for this assistant'.
